Dear Dr. Geller,

This is just a note to let you know how much I appreciate your work in eliminating the large floater from my right eye. From my standpoint, it is just short of miraculous.

I saw Dr. Alan Rich of Watson Clinic today, two days after the operation, and he found my eye pressure to be 14, which is satisfactory since the normal range is 10-24. He was very interested in my experience. I think you'll get a shot at his floaters in the future.

Thank you again.
