Dear Dr. Geller,

I would like to express my extreme gratitude for your help with the large floater in my left eye. My vision is "actually better" in the left now than the right!! That is, without having to look through that awful floater in the middle of my field of vision.

After a number of years being told by other specialists over and over "there is nothing we can do for you, you just have to live with it", I find you! What a blessing!!

Again, I'd like to Thank You and say that you and your staff are wonderful. I really appreciate everything you all did for me and will be shouting out to everyone I know who has the same problem and tell them "there is someone who can help"!!

Kindest Regards,

  
Lora Stepanovich
